

The Serving For Christ mentoring groups will have the first service project of the year on September 11th and we could use your support in collecting materials or donations.

The Santa Fe Catholic students will be making No Sew blankets to be sent to VA hospitals in the Houston, TX area that have been impacted by Hurricane Harvey. The blankets will be either twin sized or lap sized (for wheelchair bound patients).

No Sew blankets are made from 2 pieces of fleece that are tied together around the edges (see the picture to the right).

To make this project happen we are in need of materials, some of which can be borrowed and returned if you put your name on them. Some of the materials are needed for the blankets or to ship the blankets to Texas. Please contact Dr. Cari Murphy (cmurphy@santafecatholic.org) with questions or donations.
